STANDARD EDGES: ABS edges all around the top with a bevel of 2 mm. Edges are fixed with melted glue and rounded in shape.

STANDARD EDGES + RUBBER: ABS edges all around the top with a bevel of 2 mm. Edges are fixed with melted glue and rounded in shape. They include a black **shock-absorbing rubber** profile, centered along the full thickness of the tabletop. It is attached to the edge using a groove and glue.

Tops are fixed to the frame of the desk with DIN 7380 M6x16 screws. Structure has 4 fixing drillings for the top.

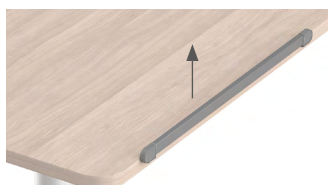

Paper-stopper lip: is included to prevent papers from falling, made of a rectangular aluminum profile with plastic end caps on each side.

Finish: silver.

LOWERED PAPER-STOPPER

RAISED PAPER-STOPPER

MOBILE HEIGHT-ADJUSTABLE FRAME:

HANDLE: white or black plastic.

It is fixed under the tabletop using 2 ALLEN M6x16 screws.

It has two levers:

1. Tilting mechanism: activates the Ø 2 mm braided steel cables with black sheaths to tilt the tabletop from 0° to 90°.

2. Height mechanism: activates the pneumatic system to raise and lower the table. Minimum height: 74 cm - Maximum height: 109 cm.

Frame composed of:

TOP PART: of the column, which incorporates the mechanism to tilt the tabletop from 0° to 90°.

COLUMN: height adjustable using a **pneumatic mechanism**.

Made of 2 round aluminum tubes with a thickness of 1.5 mm.

The lower tube has a Ø70 mm, and the upper one has a Ø77 mm.

BASE: aluminum sides and a steel crossbar. The assembly to the column is with M6 screws.
