

BACKREST AND SEAT

Upholstered backrest with polyurethane foam of 30 Kg/m³ density. Wood inner structure. Available with grey or black leather and Pu leather.

Upholstered seat with polyurethane foam of 50 Kg/m³ density. Wood inner structure. Available with grey or black leather and Pu leather.

Height adjustable piston with a gas mechanism activated using the black handle under the seat.

The backrest has **knee tilting system** that is activated using the black handle under the seat. Seat, armrests and backrest are one piece. The pivot point of the seat is closer to the seat edge. This avoids the rocking chair effect. The tilt value is from 90° to 105,5°.

It has got a **tension knob** to adjust user's weight.

FIXED ARMRESTS

Chrome L-shaped arms with black arm cover.

BASE

With wheels: polished aluminium five star base with nylon wheels Ø65 mm.

With glides: polished aluminium four star base with stainless steel glides.
